# HOW TO USE THIS DOCUMENT?

This document is intended for those partners, representatives or sales engineers who need a fast and efficient way to search for information and sales opportunities.

Here you will find the best set of information on the features and functionalities necessary to use Logitech® solutions in the corporate segment.

In addition to company overview, this document contains specific product descriptions, specifications, information on the performance of systems and equipment, links to Logitech® web pages and other information to help you quickly complete an RFP\* or RFI\* for public bids, price registration, and ecommerce.

You can use the following table to organize yourself better and respond to the requirements of RFP or RFI.

Requirements	Compatibility (Yes/No)	Yes/No Comments / justifications
<b>EXAMPLE 1:</b> The device must have a USB 2.0 Interface, without the need to use an additional adapter.	Yes	
<b>EXAMPLE 2:</b> The equipment must have a microphone with noise cancellation technology.	Yes	
<b>EXAMPLE 3:</b> The equipment must offer high-definition panoramic video quality (720p to 1080p).	Yes	
<b>EXAMPLE 4:</b> The equipment must supply power supply with voltage 120v - 240v standard inmetro.	No	Does not attend by using the standard inmetro adapter.

# TOP 10 TIPS TO LOOK YOUR BEST ON VIDEO

Lights. Camera. Action.

1

## HIGHLIGHT THE MOST IMPORTANT SUBJECT: YOU.

Position light in front of you so you are well-lit and center of attention.

2

## AVOID BRIGHTLY LIT BACKGROUNDS.

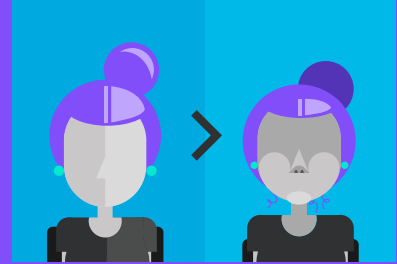

In this situation, cameras usually adjust to dim the entire image—making you look like a dark silhouette!

3

## PLACE YOUR CAMERA AT EYE LEVEL.

This is much more flattering than the notorious 'up-the-nose' shot from below.

4

## CHECK YOUR SURROUNDINGS.

Messy backgrounds or busy settings can be distracting and appear unprofessional.

5

## WEAR BOLD SOLID COLORS.

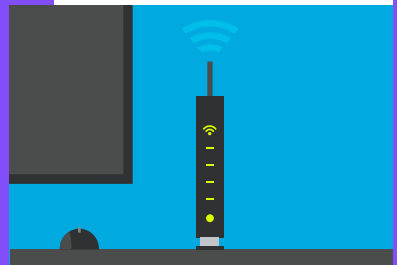

Stripes, large patterns and prints can be distracting to clients and colleagues.

6

## MAKE SURE YOU HAVE A STRONG, STABLE INTERNET CONNECTION.

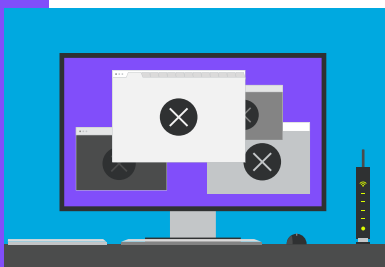

This will help avoid streaming delays so you don't become a 'frozen face' on your next call.

7

## CLOSE UNNECESSARY PROGRAMS.

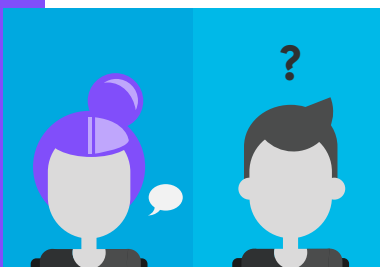

These consume resources needed to deliver a clear picture and could compromise privacy.

8

## CHECK YOUR AUDIO.

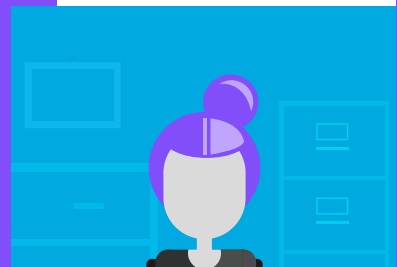

While this may not affect your visual appearance, poor audio is unprofessional and can impact perception and productivity.

9

## DO A TEST-RUN

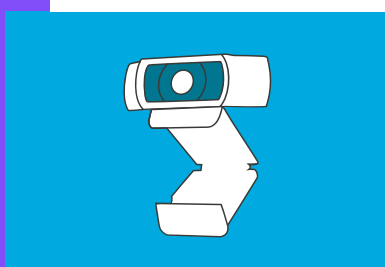

Ensure the background and lighting are up to snuff, and double check the camera is focused on you!

10

## INVEST IN AN EXTERNAL HD WEBCAM.

Whether you're on your laptop or desktop, at home or the office, using an external Logitech HD webcam will help improve video clarity, lighting, and speed so you always look your best.

Want to look better on your next Video Call?

# K120

## KEYBOARD

A durable duo that brings comfort, style and simplicity together.

### Windows XP or later | Linux

The K120 is a USB keyboard that offers a complete and durable writing experience. With the silent keys and the standard size, it provides pleasant writing. Standard layout with full-size F-keys and number pad. The keyboard has a thin profile that adds a sleek look to your desk while keeping your hands in a more comfortable, neutral position. The bold, bright white characters make the keys easier to read. They're less likely to wear off, too.

# H340 USB HEADSET

Exceptional sound clarity thought for comfort.

**Mac | iOS | Windows XP or later | Android |  
Chrome OS | Linux**

The perfect everyday headset with a simple plug-and-play USB connection. A noise-canceling microphone reduces background noise and delivers clear digital audio for VOIP and Skype™ calls. Enjoy crystal clear audio for music, games and calls. This plug-and-play headset can be used with any PC or Mac® computer without the need to install software. Lightweight headband with swivel-mounted foam ear cushions provide hours of audio comfort.

# ZONE WIRED

USB headset features premium audio drivers and advanced noise-canceling mic technology.

Mac | Windows | Chrome OS

Hear and be heard clearly with a USB headset designed for busy open workspaces. The noise-canceling microphone isolates your voice from the hustle and bustle of your surroundings, while the 40mm audio transducers produce great audio for calls and music. Built-in controls on the cable keep calling features accessible, and USB-C and USB-A adapters (included) ensure multi-device Plug and Play compatibility. In addition, Zone Wired are very comfortable for continuous use.

# TV MOUNT FOR MEETUP

Securely mount logitech meetup to a tv or monitor.

Logitech TV Mount for MeetUp securely holds the MeetUp ConferenceCam either above or below a flat-panel monitor and attaches to the industry-standard VESA mounting points available on most TVs and monitors. The TV mount's unique design allows MeetUp to be mounted above or below a monitor. Attaching MeetUp below the TV tends to provide the most natural video experience, but this mount offers both options.
